Disclaimer

This paper outlines the motivations, philosophy, tokenomics, technology approach, and roadmap of Space Monkeez Token project and its ecosystem. As a technical document, its purpose is to provide a comprehensive introduction to Space Monkeez Token project. It does not intend, nor does it attempt, to define the current state of the technology described. Nor does it provide a guarantee of success of the development plan described. To the extent permitted by law, Space Monkeez Token project rejects any implication that this document constitutes a binding agreement between the producers of the card and its consumers. Space Monkeez Token project is not responsible for any loss or damage that occurs as a result of any action taken by any individual or group as a result of consuming the contents of the present document. Space Monkeez Token project reserves the right to modify and update this document in light of better information, technological improvements, or changes in the economy.

Introduction

Space Monkeez is a revolutionary ecosystem built on the Avalanche blockchain, designed to merge the worlds of gaming, social interaction, and crypto education within one cohesive platform. At its core is the \$SPACEM token, a multifaceted digital asset generated through unique NFT nodes that fuel engagement and participation across the platform's various applications.

In the Space Monkeez ecosystem, users are encouraged to explore an interconnected set of experiences, including play-to-earn gaming, content sharing on social media, and access to a comprehensive Learn-to-Earn educational platform. Each component works in synergy to create an environment that prioritizes user experience, community development, and value generation.

Key areas:

- Inclusive Gaming with Play-to-Earn
- Community-Centric Social Media
- SPACEM Academy
- AI Meme Generator
- Newsletter on X.com

Space Monkeez is a Gaming and AI-related ecosystem powered by Nodes. A maximum of 20,000 Nodes power the entire ecosystem. Aside token creation, Nodes will gain in value, as gaming privilege and fungibility will be added over time. The Space Monkeez ecosystem also contains NFT collections, as well as AI MEME generated blockchain based images, which creative users can trade on our social media marketplace platform. The Space Monkeez ecosystem is made for users to have fun, be creative, play games and enjoy rewards. We see our project be measured by the strength of our community, and we aim for a versatile and active community. The academy will be another asset in building and shaping our community by providing crypto related know-how. The same goes for newsletter on X.com that will be focus on space technology, advancement in space, future of crypto and financial opportunities in crypto ecosystem.

Vision

To build a thriving ecosystem that is accessible, fair, and community-driven, transforming the way users interact with digital assets, learn about blockchain, and connect with each other. Space Monkeez aspires to create an enduring digital space that prioritizes user empowerment, fun, and economic opportunity. Our in-game economy reflects our core values and will be accessible, fair, social, inclusive, and rewarding.

Space Monkeez aims to set a new standard in blockchain gaming, social media, and education by creating a diverse, rewarding ecosystem that bridges traditional online experiences with the transformative potential of blockchain. Through \$SPACEM, the platform seeks to empower users to participate meaningfully in a decentralized economy.

Our Goals are:

- Build a stable Space Monkeez ecosystem
- Support and being part of the Avalanche ecosystem
- Provide fun to gamers and AI fans
- Extend education about the crypto world
- Offer fair gains by token generation through nodes, stake and play to earn mechanisms, learn to earn and enjoy and earn
- Support growing market cap by smart tokenomics

Problem & Solution

The blockchain space is characterized by rapid innovation, yet it faces several core challenges that can inhibit wider adoption and user engagement. Among these are issues of accessibility, complexity, and user retention, often making it difficult for newcomers to navigate the blockchain world. Challenges Addressed by Space Monkeez:

- **Accessibility:** Blockchain applications can be intimidating for newcomers, especially in the realms of gaming and crypto finance. Space Monkeez simplifies entry points and offers user-friendly onboarding to make crypto accessible to all.
- **Engagement and Retention:** Many blockchain projects struggle to keep users engaged. Space Monkeez fosters continuous interaction through gamified learning, community events, and regular feature updates.
- **Educational Barriers:** Knowledge gaps remain a significant hurdle in the blockchain space. SPACEM Academy addresses this by providing valuable, understandable educational resources.

But Space Monkeez is solution to those challenges. It combines the best elements of gaming, social media, and educational platforms into one ecosystem, powered by the versatile \$SPACEM token. By focusing on user-friendly design, community engagement, and practical applications of blockchain, the platform aims to overcome traditional crypto barriers and foster an inclusive environment.

Why Avalanche?

Avalanche is an open-source, Proof-of-Stake blockchain platform designed to provide a high-speed, scalable, and decentralized ecosystem for digital assets, DeFi, and enterprise applications. With its native token, AVAX, ranked among the top cryptocurrencies globally—Avalanche supports rapid transaction finality and high throughput as a Level 1 blockchain. It is EVM-compatible, allowing developers to easily migrate smart contracts and Dapps, fostering Web3 innovation. Backed by a global community with support in over 18 languages, Avalanche is also energy-efficient, consuming only as much energy as 46 U.S. households annually, according to the Crypto Carbon Ratings Institute.

The \$SPACEM token is a versatile digital currency for payments, purchases, and transactions across exchanges and wallets. It serves as a store of value with staking rewards, while also powering games, social media, and a learning platform within the Space Monkeez ecosystem. Transactions use AVAX for low-cost fuel fees, while node payments are made in USDT or USDC on the Avalanche chain. Built on the Avalanche C-chain, this ecosystem leverages the blockchain's high-speed, scalable, and secure framework—processing up to 4,500 transactions per second versus Ethereum's 15-25 TPS. Verified contract source code enhances the network's reliability, strengthening trust with industry participants and partners.

Why Gaming?

Blockchain gaming is reshaping the industry with decentralized play-to-earn (P2E) models that let players earn rewards through NFTs, cryptocurrency, and tradable in-game assets. Expected to grow from \$3 billion in 2023 to up to \$90 billion by 2027, this sector offers unique value by enabling ownership and exchange of digital assets. Space Monkeez harnesses the Avalanche C-chain's speed, scalability, and low-cost transactions to deliver a dynamic blockchain gaming ecosystem, targeting 250,000 users within its first 24 months.

Ecosystem

NFT NODES

NFT Nodes represent a core asset within Space Monkeez, serving as the primary mechanism for generating \$SPACEM tokens. Limited in supply, these nodes encourage scarcity and value retention while providing users with passive income and governance influence.

TOKEN \$SPACEM

\$SPACEM is the lifeblood of the Space Monkeez ecosystem. Its uses include in-game rewards, purchasing NFTs, accessing premium features, and staking. The token's utility and governance attributes ensure it remains integral to the platform's economy.

SOCIAL MEDIA PLATFORM

This interactive platform enables users to connect, share content, and trade digital assets such as NFTs and AI-generated memes. With features similar to popular social networks, it emphasizes ease of use and community engagement, while offering unique blockchain functionalities.

GAMING PLATFORM (Play-to-Earn)

The gaming platform provides an immersive play-to-earn experience, where players earn \$SPACEM tokens based on in-game achievements. This feature incentivizes users to engage deeply in the ecosystem and offers a rewarding alternative to traditional gaming.

ACADEMY (Learn-to-Earn)

An educational hub offering comprehensive courses on blockchain technology, crypto markets, and personal development. Learners can earn \$SPACEM tokens for course completion, making education both accessible and rewarding. Also tokens will be used for purchase of programs and courses.

AI MEME GENERATOR

A fun, creative tool that allows users to generate and share blockchain-based memes. Users can mint their memes as NFTs and trade them within the marketplace, adding a unique creative layer to the platform.

NEWSLETTER

The Space Monkeez Newsletter, distributed via X.com, keeps the community informed on new developments, project updates, and crypto trends. This ongoing engagement strengthens user loyalty and promotes community-driven growth.

TOKEN SALE	Node generated
TOKEN SUPPLY FOR NODES	27 Billion SPACEM
TOKEN HARD CAP	3 MIO USDT

Tokenomics

Team tokens can only be claimed in the next 3 years

Pre-sale I.	1.2%	600.000.000 <small>SPACEM</small>
Pre-sale II.	6%	3.000.000.000 <small>SPACEM</small>
Liquidity	8%	4.000.000.000 <small>SPACEM</small>
Play to Earn	4%	2.000.000.000 <small>SPACEM</small>
Team	6%	3.000.000.000 <small>SPACEM</small>
Advisors	4%	2.000.000.000 <small>SPACEM</small>
Treasury	5%	2.500.000.000 <small>SPACEM</small>
Staking	10.8%	5.400.000.000 <small>SPACEM</small>
Nodes	55%	27.500.000.000 <small>SPACEM</small>

Staking

Space Monkeez offers attractive staking rewards for \$SPACEM tokens, whether earned through nodes, gaming, or purchased. Staking generates new tokens, though rewards may adjust over time for tokenomics reasons. The initial APY applies only to staking started within the first six months.

Staking Time	Stake Reward	APY
3 months	10%	40%
6 months	40%	80%
1 year	120%	120%
2 years	400%	200%

Technology

SPACEM NODES

- On Avalanche C-chain, payable in USDT

USDT on Avalanche:

0x9702230A8Ea53601f5cD2dc00fDBc13d4dF4A8c7

- Nr. 20,000 nodes for sale in 20 rounds (with rising prices)
- Individually numbered and to be added to wallets as NTF by contract and number-ID - smart contract address:
0xFf7120a0889a301c0A12b92Bf62f2Fb81f9891Cc
- blockchain ID 43114

- Will receive increased importance and benefits for staking and gaming
 - Can be transferred and traded. \$SPACEM are created by the nodes
 - Complete nodes inventory transparent and visible on the blockchain:
<https://snowtrace.io/token/0xFf7120a0889a301c0A12b92Bf62f2Fb81f9891Cc/inventory?chainid=43114>

SPACEM TOKEN

- On Avalanche C-chain (blockchain ID 43114)

Smart contract address:

0x3c780F5cBF94De3EFCec964Af928D08c4508EeBE

- Total number of tokens: 50,000,000,000 (fifty billion)
- Starting value: 0,00006\$ (USDT)
- Distribution; see tokenomics page for more information only 7,2% pre-launch token sale offered majority (55%) created by nodes
- Token bonus for team and advisors (max. 10% each) are escrowed and will be claimed in the next 3 years
- Complete token supply distribution transparent and visible on the blockchain:

<https://snowtrace.io/token/0x3c780F5cBF94De3EFCec964Af928D08c4508EeBE/balances?chainid=43114>

AVALANCHE BLOCKCHAIN

- Network name: Avalanche chain (Layer 1)
- Native coin/token: AVAX – top 15 listed
- Market cap: estimated around 10 billion USD
- Ecosystem market cap: +/- 140 billion USD (7th after BTC, ETH, BNB, SOL, Optimism, Arbitrum)
- Community: +1 Million involved
- Projects with +20K transactions monthly: Trader Joe, GMX, BENQI, Pharaoh, Stargate, Aave
- Transaction speed: 4,500 transactions per second on every subnet
- Transaction finality: 1-2 seconds
- Status: <https://status.avax.network/>
- Around 1,500 validators:
<https://snowtrace.io/validators>
- Over 25 million unique addresses with currently around 120,000 daily active addresses.

Q2 - Q4 2025

Go to Market

Our **affiliate program** is central to our go-to-market strategy, driving user growth by rewarding affiliates for each successful referral. By engaging both crypto enthusiasts and newcomers, we leverage community influence to expand our reach and build a strong, engaged user base aligned with our project's vision.

- 1 Direct Bonus
- 2 Ambassador Bonus
- 3 Pools
- 4 Rewards

Space Monkeez will drive growth also through a multi-faceted approach, leveraging brand positioning, social media, community incentives, and crypto-specific strategies:

1. **Brand & Marketing:** Position Space Monkeez as a leader in blockchain gaming with targeted ads, influencer partnerships, and strategic content to build awareness and credibility.
2. **Social Media Engagement:** Use platforms like Twitter, Discord, and Telegram to share updates, host AMAs, and run interactive campaigns, fostering community and engagement.
3. **Community Programs:** Incentivize growth through affiliate and referral programs, empowering users to promote Space Monkeez within their networks.
4. **Crypto-Specific Tactics:** Drive adoption with exchange listings, DeFi integrations, and cross-promotions within the Avalanche network, creating visibility and user stickiness.
5. **Influencer Collaborations:** Partner with crypto influencers for tutorials, reviews, and content, enhancing visibility and user education in the blockchain gaming ecosystem.

MEET OUR TEAM

Space Monkeez is led by a team with expertise in blockchain development, marketing, and gaming. With ambassadors specializing in strategic growth, the project is well-positioned for sustainable expansion.
